Community Service and Agricultural Skill Building

The **Barnstead Area Community FARMERS MARKET (BACFM)**, a nonprofit entity, was developed in 2016 to create awareness of our local agricultural and small business community, thereby helping them to build and sustain economic stability. There is also a growing demand for locally grown consumables and it made sense to create a one-stop shopping place. "Better Together" as a community is the main goal of our efforts and the market has played a major role in bringing that into becoming a reality. Our market also supports local artisans, nonprofit organizations and craftsman. Our market is open Saturdays, 9 a.m. to 1 p.m. from **mid-June through Last Saturday in September**.
